1	As good as I guess they can be given there is nothing set aside for nature and real wildlife, birdwatching etc.	12/14/2017 12:49 PM
2	It wouldn't be fair to rate something that I was unaware of.	12/12/2017 7:23 AM
3	There are not enough parks in Williamson County and none that have camping. Not many trails for hiking with varying degrees of difficulty.	12/10/2017 2:28 PM
4	No opinion.	12/6/2017 10:10 AM
5	My lack of attendance to parks over the last 12mths. Should not reflect how much I appreciate that our wonderful parks are so enjoyable and accessible to the growing communities. I support enhancements and maintenance as needed and embrace creative ideas that add community value.	12/2/2017 3:21 AM
6	Can't rate....	11/30/2017 1:11 PM
7	I guess I did not know there was a difference in who ran what park. All the parks I've been to so far are wonderful.	11/29/2017 3:27 PM

Q17 What type of other experiences or activities would you like to have in Williamson County Parks that have not been mentioned in this survey?

Answered: 233 Skipped: 293

#	RESPONSES	DATE
1	There is no mention of Mountain Biking in this survey. This is a very popular outdoor activity that Wilco should be considering when considering allocation of land and funding. The trails can be utilized by hikers, runners and mountain bikers. We have a great system of trails in the Brushy Creek Regional Trail area near Parmer Lane. This trail system is so popular that it attracts people from all over the area to ride the trails which leads to local business revenue opportunities. I would like to see more of this trail development in other areas of the county. Travis County has some excellent trails at Pace Bend and Riemers as an example of where money is spent at county parks outside of Williamson County.	1/3/2018 7:31 AM
2	More outdoor/indoor pools	12/29/2017 3:31 PM
3	additional sports courts such as racquetball, youth size tennis courts	12/27/2017 2:11 PM
4	None. I am an ultrarunner so connecting trails would be great for me. It would also help in providing bike paths for people to get from one area of the county to another with out being on the streets	12/19/2017 1:46 PM
5	The trails are great but sometimes don't connect easily when we go bike riding.	12/18/2017 12:48 PM
6	Wildlife viewing shelters near waterways	12/15/2017 3:41 PM
7	Unpaved and paved hiking trails and bike trails. Designated trails for hiking only and others for biking only. Regional trail too busy with fast bikes.	12/15/2017 3:35 PM
8	Water features for kids.	12/15/2017 2:53 PM
9	none	12/15/2017 2:45 PM
10	Dog Parks More treed areas/natural trails through wooded areas Concessions at parks	12/15/2017 10:01 AM
11	.	12/14/2017 10:43 PM
12	Separate trails for bike riders and walkers. It's dangerous for walkers when bikes are on trails.	12/14/2017 3:42 PM
13	Just more open space for recreation	12/14/2017 1:57 PM

17	connectivity throughtout the county to the parks so that it is safe to bike overland to the nearest park	12/10/2017 4:32 PM
18	Camping was barely mentioned at all.	12/10/2017 2:36 PM
19	Astronomy events ? Outdoor education not mentioned specifically. Guided walks on native plants - Outdoor education not mentioned specifically	12/9/2017 1:41 PM
20	You're doing fine. Could use better parking for big activities.	12/6/2017 3:44 PM
21	Website use / value for users and county residents	12/4/2017 2:57 PM
22	More softball fields at Southwest RC Park.	12/4/2017 12:26 PM
23	music in the parks; birding stations; volunteer opportunities	12/4/2017 10:30 AM
24	I would like to see more support (money / care) for the donkeys at Berry Springs	12/3/2017 8:38 PM
25	As mentioned in comments before, I love off-leash dog trails. They make it easy for pets and humans to go hiking together and is normally one of the first things I look for when I decide to go hiking.	12/2/2017 11:19 AM
26	More green space and less strip malls and apartment buildings/multi-residential.	12/1/2017 4:17 PM

27	...	12/1/2017 3:55 PM
28	biking trails	12/1/2017 9:24 AM
29	Additional park locations further north in the county. Not many locations convenient to the general area around Ronald Reagan and Williams Drive, heading towards Florence.	12/1/2017 9:01 AM
30	Dog Park	11/30/2017 1:17 PM
31	More connectivity across the area so that cycling and walking can become a safe and useful way to get places, not just for recreation.	11/30/2017 8:30 AM
32	None	11/30/2017 6:21 AM

45	I was on a County Parks Comm. up north and the splash facility we built near a small lake was a huge hit. A family carload would come in to picnic, the big kids would swim/kayak etc. in the lake, the little kids were in the splash park, some were playing Frisbee golf and everyone was eating. That park helped support some of the others without the lake, but providing X-country ski trails or events such a spring race dubbed the 'Mud Creek Crawl', which was sort of a steeplechase going over, under or around. .	11/27/2017 3:55 PM
46	Star gazing - night time	11/27/2017 12:42 PM
47	Mountain bike trails	11/27/2017 12:30 PM
48	nothing	11/27/2017 11:45 AM
49	open sports fields for pickup games in soccer, touch football, frisbee, etc	11/27/2017 10:34 AM
50	More fishing, including stocked fishing.	11/27/2017 9:50 AM
51	Sail and motor boat rentals	11/27/2017 9:42 AM
52	get the stumps and protruding rocks out of trails - keep limbs out of site line of users	11/27/2017 9:22 AM
53	None	11/27/2017 9:21 AM
54	Trials riding. Take an unusable area, e.g. too rocky and hilly. Establish a trials course for both bicycles and motorcycles. Relax, a trials motorcycle looks a lot like a mountain bicycle. This is a great family sport. I picture: adjacent parking, compost toilet, a few picnic tables under trees or small pavilion and a large illustrated map of the area with usage regulations.	11/27/2017 9:03 AM
55	Pickleball courts	11/27/2017 7:50 AM
56	paved biking trails	11/27/2017 7:49 AM
57	More biking similar to "Rail to Trail" program.	11/27/2017 7:21 AM
58	trails for mountain biking - not too rocky though	11/27/2017 7:17 AM

60	Dog park	11/27/2017 6:32 AM

61	None	11/27/2017 6:10 AM
62	Guided hikes	11/27/2017 6:00 AM
63	I'm a fan of open space so anything that prevents cement and buildings is good. I don't honestly care if it's just open land with nothing on it. I think Round Rock is changing and not in a good way. Any green, open areas are good.	11/26/2017 6:12 PM
64	Have a competition size space for pétanque. It requires only a gravel area so people can bring their own equipment and play!	11/26/2017 2:36 PM
65	More needs to be done in eastern Williamson County. I would like to see the parks master plan address natural areas and walking/running/hiking. I don't see a need for more athletics fields.	11/26/2017 1:48 PM
66	tennis	11/26/2017 1:41 PM
67	Lots of nature landscapes	11/26/2017 1:08 PM
68	N/A	11/25/2017 7:19 PM
69	I haven't found one horse friendly trail yet. There isn't even a place where one is allowed to walk a miniature horse.	11/25/2017 7:11 PM
70	More stuff to do in north west williamson county.	11/25/2017 11:43 AM
71	Birding areas, quiet hiking paths for walkers only, mountain bike paths	11/24/2017 12:32 PM
72	Not sure	11/24/2017 9:14 AM
73	More access for blind visitors on safe walking trails.	11/24/2017 7:13 AM
74	A place to observe the constellations	11/24/2017 7:04 AM
75	Birding blinds, purple martin houses	11/24/2017 7:02 AM
76	More disc golf courses.	11/24/2017 4:05 AM
77	Expand, lengthen bike trails	11/24/2017 1:55 AM
78	Tennis courts	11/24/2017 12:32 AM
79	Personally, I believe the county spends way too much attention and money on parks. Better roads and traffic management are much higher priorities for me and my family	11/23/2017 10:29 PM
80	Dog areas	11/23/2017 4:24 PM
81	Separate adult and childrens' swimming pools. Some kind of emergency support system. Unfortunately, some evil people find parks and running trails good places to find their victims.	11/23/2017 8:31 AM
82	My kids love going to classes at the Austin Nature and Science Center. They're always cheap or free. I'd love to see something like that close to home in Williamson!	11/22/2017 2:59 PM
83	interpretive programs on level with national parks	11/21/2017 4:23 PM
84	Bike lanes	11/21/2017 3:54 PM
85	Recreational sport facilities	11/21/2017 2:55 PM
86	Gym space!	11/21/2017 1:39 PM
87	Basketball and volleyball courts	11/21/2017 10:26 AM
88	Better integration and connections with city and neighborhood parks and trails.	11/21/2017 8:36 AM
89	additional tennis courts	11/20/2017 4:55 PM
90	Preserve nature and open space. Although sports complexes are important I would rather see more open and natural spaces.	11/20/2017 4:44 PM
91	Outdoor event spaces (plays, musicals, music events)	11/20/2017 4:16 PM
92	Dedicated bike lane on 1431, 3406, 1460, 970	11/20/2017 1:43 PM
93	Williamson County has an excellent park system. Maintain what you have and maybe look at areas of the county that may not have easy access to a park.	11/20/2017 12:22 PM

94	Your website is terrible when compared to what is available for most other parks. Most importantly you need zoomable maps with GPS location built in. Next, you need wildlife information. Third you need educational materials.	11/20/2017 11:12 AM
95	more cycling opportunities	11/20/2017 10:58 AM
96	All have been addressed	11/20/2017 10:40 AM
97	designated free leash area	11/20/2017 10:26 AM
98	Keep good bike access open on Ronald Reagan, Chandler, other widely used roads. Complete the bike trail from Berry Springs under the interstate all the way to Williams Drive.	11/20/2017 10:00 AM
99	Provide access and connection to the parks via bikes. Also remember to prioritize paved dedicated bike lanes on all county arterial roads: 2243, 3405, RR, Williams, 971, etc. Wilco is a hub for bikers because of great shoulders on many roads. We need to keep it that way and improve by adding connecting paths to the parks. Thanks for taking input! Love wilco!	11/20/2017 8:38 AM
100	Continued bike access to roads such as Chandler Rd and Ronald Regan. Improved/widened shoulders on other roads between Williamson County cities for safer cycling.	11/19/2017 10:20 PM
101	Parks free from major utilities like power lines and sewage lines. Leave park space all natural, free from development because it's "easier" than other options.	11/19/2017 9:33 PM
102	More support for biking.	11/19/2017 9:10 PM
103	Skate park area, tennis courts, basketball courts, swimming pools	11/19/2017 8:50 PM
104	Biking, biking, biking safely!	11/19/2017 8:12 PM
105	None	11/19/2017 7:08 PM
106	Park directional information in more locations. Giving more options and difficulty ratings where needed.	11/19/2017 4:16 PM
107	Lake creek trail needs to be connected to something else. The fact that it borders to the COA area in NW Austin which is seriously lacking much green space sucks, and the city/Wilco and the North Austin 1 MUD aren't working well together. I hope the underpass under Parmer will connect it to the future development over on that ranch, but until then it's a great trail just so disconnected from everything. Safe trail connections are so important, a 1 mile trail is nothing if it's just by itself.	11/19/2017 9:29 AM

119	Clearly mark the regional trails, have "You are here" signs along the regional trails with a map and distances to landmarks/restrooms, and provide pdfs of the regional trail maps to download from a WilCo website.	11/18/2017 3:54 PM
120	A small petting zoo (goats, etc) would be nice for littles. I once lived in a town which had a fenced area in a park where they kept some deer that could be fed through the fence. It was free to see the animals, but there was also a food dispenser from which to buy food pellets.	11/18/2017 3:53 PM
121	More dedicated bike trails	11/18/2017 3:40 PM
122	Safer biking areas on roads and in all parks (Ronald Reagan Blv. and other county roads utilized by cyclists). Our triathlon club rides in and around this area all-year long and we have witnessed aggressive drivers and avoidable bike/car accidents and deaths. Thank you.	11/18/2017 2:19 PM

123	Major network of bike trails!	11/18/2017 12:12 PM
124	Mountain bike trails	11/18/2017 12:12 PM
125	Better playgrounds with more shade.	11/18/2017 10:45 AM

172	Not so much as another experience or activity, but simple outdoor shower(head)s at trailheads/restrooms would be great for runners such as myself and relatively inexpensive since the facilities are already plumbed. Just cut the sign budget on the Regional Trail and I'm sure this could be easily afforded.	11/16/2017 5:44 PM
173	additional disc golf facilities, longer hiking trails 3-5 miles, off road bicycling, velodrome,	11/16/2017 5:01 PM
174	I think there should be land where small outdoor concerts can held. Not just around the courthouse, or holidays. A place where local talent can play and people can enjoy not just music but being outdoors and possibly have a type of drive in movie at the same location for families. Maybe not for cars but a lawn where they can sit, eat and have family night.	11/16/2017 4:42 PM
175	Paddle boats	11/16/2017 4:08 PM
176	None	11/16/2017 3:58 PM

181	I think Williamson county needs to fluxes on the Taylor area and give us more !!	11/16/2017 2:19 PM
182	More trees and tree house for play	11/16/2017 2:05 PM
183	Bike Commuting, especially southwards into Travis County More/better Splash Pads accessible along brushy creek regional trail (around great oaks) Playgrounds similar to what the city of Round Rock have installed (see Play for all and Old Settlers Park)	11/16/2017 2:02 PM
184	I am disabled..so well maintained pathways are very important. Also..safe bike paths to get to the parks..instead of driving to them transporting my bike in my car. I live off 2243 on Riverview. Biking on 2243 to town is not safe.	11/16/2017 1:30 PM
185	Encourage Mountain biking trail development by partnering with Austin Ridge Riders. (Wilco SW Regional, Brushy Creek, etc.)	11/16/2017 12:44 PM
186	Mtn bike trails Disk golf Climbing walls More signage on nature wildflowers	11/16/2017 11:41 AM
187	open areas to do physical activity - such as stretching and/or dance classes	11/16/2017 11:14 AM

188	My husband and I play Pokémon Go with our friends and their kids at least once a week at the parks. Its a great way to keep the kids engaged, get some exercise, and enjoy nature at the same time. We see multiple people/families doing the same while we are there. I think our parks would really benefit if we posted on social media which Pokémon are at which parks (which changes every other week), or post when there are special Pokémon events (like the ones that require a certain distance be walked to "hatch" a Pokémon egg). Its a great way to engage entire families and encourage people to get out and walk the park trails! :-)	11/16/2017 10:41 AM
189	Organized educational activities for kids.	11/16/2017 10:13 AM
190	If the City of Round Rock has no plans to actually go ahead with Behrens Ranch Park, Williamson County should develop that park plan	11/16/2017 9:59 AM
191	I would like to have more areas to kayak/canoe.	11/16/2017 9:58 AM
192	Pools, Water park for humans and dogs	11/16/2017 9:55 AM
193	more safe, clean dog parks	11/16/2017 9:25 AM
194	Link trail system to downtown Round Rock, Georgetown, etc. Makes the trails more usable by families.	11/16/2017 9:12 AM
195	Please stop tearing down trees to add for trails. We do not need the Brushy creek trail extension going through our neighborhood. More "traffic" increases crime and we are already seeing this effect with the addition of the Creek Bend blvd. The light pollution is also harmful for creatures who live along the creek. Preserve our beautiful area by not building it all up!	11/16/2017 6:31 AM
196	WHite water surf course	11/16/2017 6:16 AM
197	Love the fishing idea. Moved to Williamson county 3 years ago from New England. I was raised fishing, and would love to do the same for my kids, but being newer to the area I don't know where to go.	11/15/2017 10:46 PM
198	a rodeo areana , horses to ride.	11/15/2017 9:24 PM
199	Post signage prohibiting firearms and air soft gun "play", post 30.06 and 30.07 and prohibit all firearms, rifles, shotguns, etc. County swimming pool, splash pads, Emergency notification buttons at intervals on the trails especially less visited and less visible areas Lightning detection warnings	11/15/2017 8:28 PM
200	Mountain biking trails, esp single track. Dirtbike or ATV recreation would be tremendously popular. Waterparks	11/15/2017 7:59 PM

WILLIAMSON COUNTY COMPREHENSIVE PARKS MASTER PLAN

REGIONAL TRAIL TYPES

Preferred Trail Section

The recommended preferred trail section is a 12' to 14' wide concrete trail. This trail section accommodates the most trail users and handles high traffic volumes. The wide section is ideal for a regional, shared-use trail while the concrete surface is preferred for durability and low maintenance costs. Appropriate in flood-prone areas and sloped terrain.

Alternative Section (Sidepath)

A recommended alternative to the preferred section is an 8' to 10' wide concrete trail alongside a public street. These trails may be necessary as linkages between regional trail and also to regional destinations. The narrower width emphasizes lower travel speeds, particularly for cyclists. Sidepaths may also function as a street sidewalk, which means a greater volume of daily foot traffic. A generous buffer between the street and sidepath is desired on major streets.

Alternative Section (dual-surface)

A second recommended alternative is a dual-surface trail that accommodates a variety of trail users on separate surfaces. This section would contain a 3 to 5' wide jogging/pedestrian lane with a surface of decomposed granite or similar material for the comfort of joggers and pedestrians. The remaining attached or detached trail is concrete, for all other users. This alternative is more expensive to maintain and is not appropriate within floodplains, along slopes, or along public streets.

CORPORATION FOR NATIONAL & COMMUNITY SERVICE

AMERICORPS

AmeriCorps seeks to strengthen communities through projects that address education, public safety, the environment, and other unmet human needs. AmeriCorps grants are awarded to eligible organizations proposing to engage AmeriCorps members in evidence-based or evidence-informed interventions to strengthen communities.

Applicants are strongly encouraged to submit a Notification of Intent to apply for this competition, but it is not required. There are application deadlines at various times throughout the year.

Amount: Vary, may be awarded as fixed amount or cost reimbursement

DEPARTMENT OF AGRICULTURE – FOOD NUTRITION SERVICE

CHILD AND ADULT CARE FOOD PROGRAM

The Department of Agriculture (USDA) offers funds for meals and snacks for children in low-income areas during after-school and summer hours. Through the Child and Adult Care Food Program, USDA administers Afterschool Snacks, a program that offers reimbursement for snacks to after-school care program providers. For eligibility, the after-school programs must offer educational or enrichment activities in an organized, structured, and supervised environment after school, on weekends or holidays during the school year. The organization will be reimbursed at the highest level, currently 55 cents a snack per child per day.

FARM TO SCHOOL GRANT

The purpose of the USDA Farm to School Grant Program is to assist eligible entities in implementing farm to school programs that improve access to local foods in eligible schools. On an annual basis, USDA awards up to \$5 million in competitive grants for training, supporting operations, planning, purchasing equipment, developing school gardens, developing partnerships, and implementing farm to school programs.

The Program offers three types of grants: Planning awards range from \$20,000 - \$45,000; implementation and support service awards range from \$65,000 - \$100,000; training awards range from \$15,000 - \$50,000. Matching funds of 25% are required for all four grant types.

Website: <http://www.fns.usda.gov/farmtoschool/farm-school-grant-program>
Amount: \$15,000 to \$100,000; Total program funding estimated to be \$5 million.

DEPARTMENT OF AGRICULTURE – NATIONAL INSTITUTE OF FOOD AND AGRICULTURE

COMMUNITY FOOD PROJECTS (CFP) COMPETITIVE GRANTS PROGRAM

The primary goals of the CFP are to: Meet the food needs of low-income individuals through food distribution, community outreach to assist in participation in Federally assisted nutrition programs, or improving access to food as part of a comprehensive service; Increase the self-reliance of communities in providing for the food needs of the communities; Promote comprehensive responses to local food access, farm, and nutrition issues; and Meet specific state, local or neighborhood food and agricultural needs including needs relating to: Equipment necessary for the efficient operation of a project; Planning for long-term solutions; or The creation of innovative marketing activities that mutually benefit agricultural producers and low-income consumers. This grant requires 100% matching.

Examples of CFP Projects include, but are not limited to, community gardens with market stands, value chain projects, food hubs, farmers' markets, farm-to-institutions projects, and marketing & consumer cooperatives. All projects must involve low-income participants.

Examples of PPs include, but are not limited to, community food assessments' coordination of collaboration development plan, GIS analysis, food sovereignty study, and farm-to-institution exploration. All projects must involve low-income participants

DEPARTMENT OF AGRICULTURE – NATURAL RESOURCES CONSERVATION SERVICE

ENVIRONMENTAL QUALITY INCENTIVE PROGRAM (EQIP)

EQIP provides financial and technical assistance to agricultural producers in order to address natural resource concerns and deliver environmental benefits such as improved water and air quality, conserved ground and surface water, reduced soil erosion and sedimentation or improved or created wildlife habitat.

Eligible program participants receive financial and technical assistance to implement conservation practices, or activities like conservation planning, that address natural resource concerns on their land. Payments are

made to participants after conservation practices and activities identified in an EQIP plan of operations are implemented. Contracts can last up to ten years.

CONSERVATION INNOVATION GRANTS (CIG)

Conservation Innovation Grants (CIG) are competitive grants that stimulate the development and adoption of innovative approaches and technologies for conservation on agricultural lands. CIG uses Environmental Quality Incentives Program (EQIP) funds to award competitive grants to non-Federal governmental or nongovernmental organizations, American Indian Tribes, or individuals. Producers involved in CIG funded projects must be EQIP eligible.

Through CIG, NRCS partners with public and private entities to accelerate technology transfer and adopt promising technologies. These new technologies and approaches address some of the Nation's most pressing natural resources concerns. CIG benefits agricultural producers by providing more options for environmental enhancement and compliance with Federal, State, and local regulations.

States can also award project that benefit a limited geographical area. Participating states will announce their funding availability for CIG competitions through their state NRCS offices.

The maximum CIG award is set annually by the NRCS Chief and historically has been either \$1 million or \$2 million. An applicant's CIG funding request must be matched at least 1:1 with non-federal funding. Matching funds can be any combination of cash and in-kind contributions. The grantee is also responsible for providing the technical assistance required to successfully complete the project. NRCS will provide technical oversight for each project receiving an award.

AIR QUALITY INITIATIVE

The NRCS Environmental Quality Incentives Program (EQIP) Air Quality Initiative provides financial assistance to implement conservation practices that address air resource issues for designated locations throughout the nation. Agricultural atmospheric related concerns include greenhouse gas emissions, ozone precursors, volatile organic compounds, airborne particulate matter, and some odor-related volatile compounds. For more information about agricultural air quality concerns, see the Air Quality topic.

Timeframe: NRCS accepts applications for assistance on continuous basis, but states may establish application periods.

CONSERVATION STEWARDSHIP PROGRAM

The Conservation Stewardship Program (CSP) offers assistance to land owners who are already implementing conservation practices to enhance those practices. For example, if you have been practicing prescribed grazing, CSP would give you options to enhance that practice with activities such as grazing management to improve plants for wildlife, or grazing management to reduce soil compaction, or grazing management to improve riparian function, just to name a few.

With enrollment in CSP, the local NRCS conservation planner will have a one-on-one consultation with the property owner(s) to evaluate your current management system and the natural resources on your land. The NRCS conservation planner will present a variety of CSP enhancement alternatives for implementation on the land, based on existing conservation practices. CSP offers annual incentive payments for installing these enhancement practices.

Texas website: <http://www.nrcs.usda.gov/wps/portal/nrcs/main/tx/programs/financial/csp/>

Award: varies based on implementation of conservation practices

Timeframe: Applications are accepted throughout the year. Specific deadlines are set for ranking and funding opportunities.

CONSERVATION TECHNICAL ASSISTANCE

The purpose of the program is to assist land—users, communities, units of state and local government, and other federal agencies in planning and implementing conservation systems. The purpose of the conservation systems are to reduce erosion, improve soil and water quality, improve and conserve wetlands, enhance fish and wildlife habitat, improve air quality, improve pasture and range condition, reduce upstream flooding, and improve woodlands. The program is also used as a means to collect, analyze, interpret, display, and disseminate information about the condition and trends of the Nation's soil and other natural resources so that people can make good decisions about resource use and about public policies for resource conservation. Information collected through the program is used to develop effective science-based technologies for natural resource assessment, management, and conservation.

For more information about the Conservation Technical Assistance program go to: <http://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/technical/cta/>

EMERGENCY WATERSHED PROTECTION PROGRAM

The Emergency Watershed Protection Program (EWPP) is designed to help people and conserve natural resources by relieving imminent hazards to life and property caused by floods, fires, windstorms, and other natural occurrences. EWP is an emergency recovery program. All projects undertaken, with the exception of the purchase of floodplain easements, must have a project sponsor.

NRCS may bear up to 75 percent of the construction cost of emergency measures. The remaining 25 percent must come from local sources and can be in the form of cash or in-kind services. Funding is subject to Congressional approval.

City and county governments, flood and water control districts, and soil and water conservation districts are the most common sponsors of EWP projects. Activities include providing financial and technical assistance to:

- remove debris from stream channels, road culverts, and bridges,
- reshape and protect eroded banks,
- correct damaged drainage facilities,
- establish cover on critically eroding lands,
- repair levees and structures, and
- repair conservation practices.

NRCS may purchase EWP easements “in lieu of recovery” on any floodplain lands that have been impaired within the last 12 months or that have a history of repeated flooding (i.e., flooded at least two times during the past 10 years). If it is more cost effective, EWP-Floodplain Easement (FPE) can be used as an alternative to EWP. See the comparison of EWP and EWP-FPE.

Award: state-administered. Texas received over \$21 million in FY2016 to restore conditions from heavy rains and flooding in 2015.

WATERSHED AND FLOOD PREVENTION OPERATIONS (WFPO) PROGRAM

The Watershed and Flood Prevention Operations (WFPO) Program provides technical and financial assistance to States, local governments and Tribes (project sponsors) to plan and implement authorized watershed project plans for the purpose of:

- watershed protection
- flood mitigation
- water quality improvements
- soil erosion reduction
- rural, municipal and industrial water supply
- irrigation
- water management
- sediment control
- fish and wildlife enhancement
- hydropower

Under the Watershed Program NRCS cooperates with States and local agencies to carry out works of improvement for soil conservation and for other purposes including flood prevention; conservation, development, utilization and disposal of water; and conservation and proper utilization of land.

DEPARTMENT OF AGRICULTURE – RURAL DEVELOPMENT

COMMUNITY FACILITIES DIRECT LOAN & GRANT PROGRAM

This program provides affordable funding to develop essential community facilities in rural areas. An essential community facility is defined as a facility that provides an essential service to the local community for the orderly development of the community in a primarily rural area, and does not include private, commercial or business undertakings.

Eligible areas include rural cities, villages, townships, or towns with no more than 20,000 residents. Funding types include low-interest loans, grants, or a combination of the two. Grants are awarded on a need-basis,

based on community size and median household income. Grant assistance share of total eligible project costs is limited depending on community size and median household income.

RURAL COMMUNITY DEVELOPMENT INITIATIVE GRANTS

This program provides funding to help non-profit housing and community development organizations support housing, community facilities, and community and economic development projects in rural areas.

Funds may be used to improve housing, community facilities, and community and economic development projects in rural areas.

Eligible areas include rural cities, villages, townships, or towns with no more than 20,000 residents. Funding types include low-interest loans, grants, or a combination of the two. Grants are awarded on a need-basis, based on community size and median household income. Grant assistance share of total eligible project costs is limited depending on community size and median household income.

100% matching is required.

URBAN AND COMMUNITY FORESTRY PROGRAM, COUNCIL & 10-YEAR ACTION PLAN

The Urban and Community Forestry program assists state forestry agencies, local and tribal governments, and private sector entities improve natural resource management of trees and forests in urban areas and community settings. The program encourages and facilitates the active involvement of volunteers in the management and protection of their community's natural resources. The program also analyzes, develops, disseminates, and demonstrates scientific information about protecting, managing, and maintaining community forest resources. States are encouraged to offer competitive grants that involve partnerships with local governments, nonprofit organizations, and the private sector for the purpose of establishing effective community forestry programs.

The National Urban and Community Forestry Advisory Council (NUCFAC) is a Congressionally designated advisory council to the Secretary of Agriculture on urban forestry and related issues. The 1990 Farm Bill created NUCFAC to bring together the wide variety of voices raised about a common concern: the present health and future preservation of America's urban forests. NUCFAC was founded to synthesize the full spectrum of views into a consistent vision, as a foundation for practical policy on urban forestry and related natural resources.

The Ten Year Urban Forestry Action Plan developed by and for the urban forestry community. The plan's purpose is to expand awareness of the benefits that our urban forests, including green infrastructure, provide to communities throughout the nation, and increase investments in these urban forest resources for the benefit of current and future generations. The plan provides specific goals, actions, and recommendations for improving the status of urban and community forestry for the United States and its territories. The plan also identifies research needs, messaging and communications needs, and innovative funding and collaborative opportunities for urban forestry initiatives. Notably, this plan also serves as a framework for funding and recommendation priorities developed by the National Urban and Community Forestry Advisory Council (NUCFAC) for the U.S. Forest Service's National Urban and Community Forestry program and National Challenge Cost Share Grants. The urban forestry community, including the Forest Service and other applicable Federal agencies, are to use the Action Plan as a guide to implement and expand urban and community forestry for the next ten years.

DEPARTMENT OF COMMERCE – NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

NTIA administers grant programs that further the deployment and use of broadband and other technologies in America, laying the groundwork for sustainable economic growth; improved education, public safety, and health care; and the advancement of other national priorities.

The agency manages two broadband grant programs funded by the American Recovery and Reinvestment Act: the Broadband Technology Opportunities Program (BTOP) and the State Broadband Initiative (SBI) (formerly called the State Broadband Data and Development Grant Program). Through these programs,

NTIA is overseeing an investment of approximately \$4 billion in projects throughout the United States to support the deployment of broadband infrastructure, enhance and expand public computer centers, encourage sustainable adoption of broadband service, and promote statewide broadband planning and data collection activities. The State Broadband Initiative is also responsible for creation and maintenance of the National Broadband Map.

Website: <https://www.ntia.doc.gov/home>

BROADBAND OPPORTUNITY COUNCIL

The American Recovery and Reinvestment Act (ARRA) provided a total of \$7.2 billion to the National Telecommunications and Information Administration (NTIA) and the Department of Agriculture's Rural Utilities Service (RUS) to fund projects that would expand access to and adoption of broadband services across the United States. NTIA utilized \$4.7 billion of that funding for grants to deploy broadband infrastructure in the U.S., expand public computer center capacity, and encourage sustainable adoption of broadband service.

President Obama on March 23, 2015 signed a Presidential Memorandum creating the Broadband Opportunity Council (Council) and appointing the Commerce and Agriculture Departments as co-chairs. The Broadband Opportunity Council includes 25 federal agencies and departments that will engage with industry and other stakeholders to understand ways the Executive Branch can better support the needs of communities seeking broadband investment. It will also help identify regulatory barriers unduly impeding broadband deployment, adoption or competition, and recommend steps to remove such barriers. Website: <https://www.ntia.doc.gov/category/broadband-opportunity-council>.

BROADBAND TECHNOLOGY OPPORTUNITIES PROGRAM (AKA: BROADBANDUSA)

The Broadband Technology Opportunity Program (BTOP), also known as BroadbandUSA) is a broadband grant program administered by NTIA to provide assistance to communities that want to expand their broadband capacity and promote broadband adoption. BroadbandUSA brings stakeholders together to solve problems, contribute to emerging policies, link communities to other federal agencies and funding sources, and address barriers to collaboration across agencies.

- Technical Assistance: BroadbandUSA provides technical assistance to communities that want to improve their broadband capacity and use broadband more effectively.
- Publications: BroadbandUSA provides expert, impartial advice and field-proven tools for assessing broadband adoption, planning new infrastructure, and engaging a wide range of partners in broadband projects.
- Community Connectivity Initiative: BroadbandUSA is engaging community, corporate and civic leaders to develop and finalize a set of connectivity indicators, create a strategic online self-assessment, and expand resources that support and accelerate local broadband planning efforts.

Website: <http://www2.ntia.doc.gov/>

STATE BROADBAND INITIATIVE (SBI)

The State Broadband Initiative (SBI) is a broadband grant program administered by NTIA. This program implements the joint purposes of the Recovery Act and the Broadband Data Improvement Act, which envisioned a comprehensive program, led by state entities or non-profit organizations working at their direction, to facilitate the integration of broadband and information technology into state and local economies. Economic development, energy efficiency, and advances in education and health care rely not only on broadband infrastructure, but also on the knowledge and tools to leverage that infrastructure.

DEPARTMENT OF COMMERCE – ECONOMIC DEVELOPMENT ADMINISTRATION

PLANNING PROGRAM AND LOCAL TECHNICAL ASSISTANCE PROGRAM

Through its Planning and Local Technical Assistance programs, EDA assists eligible recipients in developing economic development plans and studies designed to build capacity and guide the economic prosperity and resiliency of an area or region. The Planning program helps support organizations, including District Organizations, Indian Tribes, and other eligible recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of high-quality jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDs), which articulate and prioritize the strategic economic goals of recipients' respective regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility studies and impact analyses.

21ST CENTURY COMMUNITY LEARNING CENTER

This program supports the creation of community learning centers that provide academic enrichment opportunities during non-school hours for children, particularly students who attend high-poverty and low-performing schools. The program helps students meet state and local student standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities that can complement their regular academic programs; and offers literacy and other educational services to the families of participating children.

Formula grants are awarded to State educational agencies, which in turn manage statewide competitions and award grants to eligible entities. For this program, eligible entity means a local educational agency, community-based organization, another public or private entity, or a consortium of two or more of such agencies, organizations, or entities. States must give priority to applications that are jointly submitted by a local educational agency and a community-based organization or other public or private entity.

NATIONAL COLLABORATIVE ON CHILDHOOD OBESITY RESEARCH FUNDING OPPORTUNITIES

The National Collaborative on Childhood Obesity Research (NCCOR) brings together four of the nation's leading research funders – the Centers for Disease Control and Prevention (CDC), the National Institutes of Health (NIH), the Robert Wood Johnson Foundation (RWJF), and the U.S. Department of Agriculture (USDA) – to address the problem of childhood obesity in America. These leading national organizations: work in tandem to manage projects and reach common goals; coordinate funding to make the most of available resources; and share insights and expertise to strengthen research. NCCOR focuses on efforts that have the potential to benefit children, teens, and their families, and the communities in which they live.

NCCOR publishes the funding opportunities from the partners to fund a range of project types. Visit the following website for more information on the opportunities: <http://nccor.org/news/funding-opportunities/>

CHILD CARE AND DEVELOPMENT FUND

The Child Care and Development Fund (CCDF) made available \$5.2 billion to States, Territories, and Tribes in Fiscal Year (FY) 2012. CCDF is authorized by the Child Care and Development Block Grant Act and Section 418 of the Social Security Act. CCDF assists low-income families in obtaining child care so they can work or attend training/education. The program also improves the quality of child care, and promotes coordination among early childhood development and afterschool programs.

Initiatives of the CCDF include:

- Strengthening Family Child Care, a special initiative to strengthen family child care (FCC). The purpose of this initiative is to promote pathways and progressions to build the supply and stability of high quality FCC providers.
- Early Learning Initiative, which includes projects and grants that bring child care and early learning partners together at federal, state, and local levels for greater collaboration and more effective services throughout the country.
- Let's Move! Child Care promotes children's health by encouraging and supporting physical activity and healthier nutrition practices in early care and education settings.
- Emergency Preparedness, which addresses emergency preparation and response as it relates to the children in the event of a major disaster or emergency.

COMMUNITY ECONOMIC DEVELOPMENT PROGRAM

Community Economic Development (CED) is a federal grant program funding Community Development Corporations that address the economic needs of low-income individuals and families through the creation of sustainable business development and employment opportunities.

CED awards funds to private, non-profit organizations that are community development corporations (CDCs), including faith-based organizations, and Tribal and Alaskan Native organizations. CDCs must be governed by a three-party board of directors that includes residents of the community served, and local business and civic leaders. CDCs must have as their principle purpose planning, developing or managing low-income housing or community development projects.

CED programs also provide technical and financial assistance for economic development activities.

PARTNERSHIP TO IMPROVE COMMUNITY HEALTH (PICH)

PICH is a 3-year initiative that supports implementation of evidence-based strategies to improve the health of communities and reduce the prevalence of chronic disease. PICH builds on a body of knowledge developed through previously funded Centers for Disease Control and Prevention (CDC) programs and encourages collaborations with a multi-sectoral coalition to implement sustainable changes in communities where people live, learn, work, and play.

COMMUNITY MENTAL HEALTH SERVICES BLOCK GRANT (MHBG)

SAMHSA makes grant funds available through the Center for Substance Abuse Prevention, the Center for Substance Abuse Treatment, and the Center for Mental Health Services. Funding opportunities are available in the form of non-competitive block grants and competitive block grants that support programs for substance use disorders and mental illness.

The Community Mental Health Services Block Grant (MHBG) is one of two block grants available from the SAMHSA. The MHBG program provides funds and technical assistance to all 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and 6 Pacific jurisdictions. Grantees use the funds to provide comprehensive, community-based mental health services to adults with serious mental illnesses and to children with serious emotional disturbances and to monitor progress in implementing a comprehensive, community-based mental health system.

The MHBG program targets:

- Adults with serious mental illnesses. Includes persons age 18 and older who have a diagnosable behavioral, mental, or emotional condition—as defined by the Psychiatric Association’s Diagnostic and Statistical Manual (DSM) of Mental Disorders. Their condition substantially interferes with, or limits, one or more major life activities, such as: Basic daily living (for example, eating or dressing); Instrumental living (for example, taking prescribed medications or getting around the community); Participating in a family, school, or workplace.
- Children with serious emotional disturbances. Includes persons up to age 18 who have a diagnosable behavioral, mental, or emotional issue (as defined by the DSM). This condition results in a functional impairment that substantially interferes with, or limits, a child’s role or functioning in family, school, or community activities.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT (HUD) COMMUNITY DEVELOPMENT PROGRAMS

The activities of the Community Planning and Development Program build stronger and more resilient communities through an ongoing process of identifying and addressing needs, assets, and priority investments. Community development activities may support infrastructure, economic development projects, installation of public facilities, community centers, housing rehabilitation, public services, clearance/acquisition, microenterprise assistance, code enforcement, homeowner assistance and many other identified needs. Federal support for community development encourages systematic and sustained action by State, and local governments. The Office of Block Grant Assistance administers funds, Community Development Block Grant (CDBG), allocated to State and local governments to address locally identified community development needs through the following programs (only showing those applicable in Texas):

- CDBG Entitlement Program provides annual grants on a formula basis to entitled cities and counties to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons.
- CDBG State Program allows States to award grants to smaller units of general local government that develop and preserve decent affordable housing, to provide services to the most vulnerable in our communities, and to create and retain jobs.
- CDBG Program Colonias Set-Aside requires the border states of Arizona, California, New Mexico and Texas to set aside a percentage of their annual State CDBG allocations for use in the Colonia to help meet the needs of the Colonias residents in relationship to the need for potable water, adequate sewer systems, or decent, safe and sanitary housing.
- Section 108 Loan Guarantee Program is the loan guarantee provision of the CDBG Program and provides communities with a source of financing for economic development, housing rehabilitation, public facilities, and large-scale physical development projects.
- CDBG Disaster Recovery Program provides flexible grants to help cities, counties, and States recover from Presidentially-declared disasters, especially in low-income areas, subject to availability of supplemental appropriations.
- The Neighborhood Stabilization Program provides grants to communities that have suffered from

foreclosures and abandonment to purchase and redevelop foreclosed and abandoned homes and residential properties.

- Brownfields Economic Development Initiative provides grants to assist cities with the redevelopment of abandoned, idled and underused industrial and commercial facilities where expansion and redevelopment is burdened by real or potential environmental contamination.

Each fiscal year (FY), HUD publishes a General Section that contains requirements for all of HUD's competitive grant programs. To be considered for funding, applications must meet all applicable requirements of the General Section and the requirements in the Program NOFA.

HOPE VI REVITALIZATION GRANTS

The specific elements of public housing transformation that have proven key to HOPE VI include: Changing the physical shape of public housing; establishing positive incentives for resident self-sufficiency and comprehensive services that empower residents; lessening concentrations of poverty by placing public housing in non-poverty neighborhoods and promoting mixed-income communities; and forging partnerships with other agencies, local governments, nonprofit organizations, and private businesses to leverage support and resources. Only public housing authorities are eligible to apply for these funds, but park and recreation agencies can contract to develop recreation facilities at public housing sites and to provide community and supportive service programs for residents, including those relocated as a result of revitalization efforts. DEPARTMENT OF THE INTERIOR – FISH AND WILDLIFE SERVICE AQUATIC RESOURCE EDUCATION PROGRAM

The Aquatic Resource Education Program helps people understand, enjoy and conserve the aquatic natural resources of the nation. States have the option of using up to 15 percent of their annual Sport Fish Restoration apportionment for aquatic resource education programs and outreach and communications projects. The Sport Fish Restoration Program, created in 1950, provides funding for fish management, conservation, restoration, aquatic education, and boating access. The program is funded by a 10 percent Federal excise tax on fishing rods, reels, creels, lures, flies and artificial baits and a 3 percent tax on electronic fishing motors and sonar fish finders; duties on imported fishing tackle, pleasure boats and yachts; and a portion of the Federal fuel tax receipts from motorboats and small gasoline engines. The funds are apportioned annually to the states and territories by the Department of the Interior on the basis of formulas set forth in the Act. Apportionments are determined for each state by land area and number of fishing license owners. All funds are disseminated through State Fish and Wildlife Departments.

BOATING ACCESS PROGRAM

The Boating Access (BA) Program provides grant funds to the states, the District of Columbia and insular areas fish and wildlife agencies for projects that provide access to America's waterways by developing new access facilities or renovation and/or improvement of existing facilities.

Today more than 16.8 million boats use U.S. waterways. A large percentage of these are operated by anglers and recreational boaters.

The Boating Access Program is part of the Sport Fish Restoration Program. Spending for the BA is authorized in the Sport Fish Restoration Act.

The Sport Fish Restoration Act mandates each state, the District of Columbia and insular area to allocate at least 15 percent of their annual Sport Fish Restoration apportionment to boating access projects. The allocation is averaged over a five year period for each U.S. Fish and Wildlife Service region.

The funds apportioned annually are derived from excise taxes on fishing equipment, motorboat and small engine fuels, import duties, and interest collected in the Sport Fish Restoration and Boating Trust Fund. These funds are apportioned to the states, the District of Columbia and insular areas based on a formula which includes land area, number of paid license holders, minimums and maximums.

BOATING INFRASTRUCTURE GRANT PROGRAM

The Boating Infrastructure Grant Program (BIG) provides grant funds to the states, the District of Columbia and insular areas to construct, renovate, and maintain tie-up facilities with features for transient boaters in vessels 26 feet or more in length, and to produce and distribute information and educational materials about the program. The BIG Program includes two funding tiers, Tier One (non-competitive) and Tier Two (nationally competitive). Under Tier One each state, the D.C. and insular area may receive funding for eligible projects up to \$200,000 annually. Tier Two funds are made available through a nationally competitive process. Tier Two proposals received are reviewed, evaluated and ranked by a national panel with the final decision for funding made by the Director of the U.S. Fish and Wildlife Service. The ranking criteria, eligible projects and regulations are listed in 50 CFR 86.

Funds for the BIG Program are provided annually from the Sport Fish Restoration and Boating Trust Fund. The amount provided is 4% of the funds (split between the BIG and CVA programs) in the Sport Fish Restoration and Boating Trust Fund after deducting amounts for WSFR administration, the Multistate Conservation Grant Program, the Sport Fishing and Boating Partnership Council and fisheries commissions.

CLEAN VESSEL ACT GRANT PROGRAM

The Clean Vessel Act Grant Program (CVA) provides grant funds to the states, the District of Columbia and insular areas for the construction, renovation, operation, and maintenance of pump-out stations and waste reception facilities for recreational boaters and also for educational programs that inform boaters of the importance of proper disposal of their sewage.

COASTAL IMPACT ASSISTANCE PROGRAM

The Coastal Impact Assistance Program (CIAP) provides federal grant funds derived from federal offshore lease revenues to oil producing states for conservation, protection, or restoration of coastal areas including wetlands; mitigation of damage to fish, wildlife, or natural resources; planning assistance and the administrative costs of complying with these objectives; implementation of a federally-approved marine, coastal, or comprehensive conservation management plan; and mitigation of the impact of outer Continental Shelf activities through funding of onshore infrastructure projects and public service needs.

Statewide CIAP plans that include proposed projects have been prepared by the affected states: Alabama, Alaska, California, Louisiana, Mississippi and Texas. The federally approved CIAP plans have also been coordinated through a public review process.

Federal grant funds must be used to directly benefit an authorized use to conserve, restore, enhance, and protect renewable natural resources. Non-federal matching funds are not required for approved grant projects associated with this federal grant program.

HUNTER EDUCATION PROGRAM

The Hunter Education Program provides grant funds to the states and insular areas fish and wildlife agencies for projects to provide instruction in firearm operations and safety, wildlife management, nature conservation, ethics, game laws, outdoor survival and wilderness first aid. Funds may also be used for the development and operations of archery and shooting range facilities.

The goal is to teach students to be safe, responsible, conservation-minded hunters. Most States require completion of a hunter education course prior to purchasing a hunting license.

LANDOWNER INCENTIVE PROGRAM (NON-TRIBAL PORTION) - OVERVIEW

The Landowner Incentive Program (LIP) provides federal grant funds to grant funds to the states, the District of Columbia and insular areas to protect and restore habitats on private lands, to benefit Federally listed, proposed or candidate species or other species determined to be at-risk.

Grant funds must be used to establish or supplement State landowner incentive programs to benefit species identified in the State's Comprehensive Wildlife Conservation Strategy (State Wildlife Action Plan) or classified as Special Concern by the State, or Federally listed, proposed, or candidate species or other species determined to be at-risk. These grant funds may also be used to provide technical and financial assistance to private landowners for habitat protection and restoration. More info...

The LIP Program includes two funding tiers, Tier One (non-competitive) and Tier Two (nationally competitive). Under Tier One each state may receive funding for eligible projects up to \$200,000 annually and the District of Columbia and insular areas up to \$75,000 annually. If there is adequate funding in the appropriation, WSFR will rank Tier Two grants and award grants through a national competition. The competition will be announced separately.

MULTISTATE CONSERVATION GRANT PROGRAM - OVERVIEW

The MSCGP provides funding for wildlife and sport fish restoration projects identified as priority projects by the Association of Fish and Wildlife Agencies (AFWA). These high priority projects address problems affecting states on a regional or national basis. Project types that are generally selected for funding are: biological research/training, species population status, outreach, data collection regarding hunter/angler participation, hunter/aquatic education, economic value of fishing/hunting, and regional or multistate habitat needs assessments.

The AFWA and the Division of Wildlife Sport Fish Restoration Program (WSFR) work together to manage the MSCGP. The AFWA administers the grant application process, providing oversight, coordination, and guidance for the MSCGP while the WSFR awards and manages the grants.

NATIONAL COASTAL WETLANDS GRANT PROGRAM

The National Coastal Wetlands Conservation Grants Program is authorized by the Director of the U.S. Fish and Wildlife Service to grant funds to coastal states to carry out coastal wetlands conservation projects. Participants in the program include state, county, and municipal governments as well as non-government partners.

Funds for the Coastal Wetlands Grant Program are provided annually from the Sport Fish Restoration and Boating Trust Fund. The Coastal Wetlands Planning, Protection and Restoration Act (CWPPRA) receives 18.5 percent of the funds in the Trust Fund after deducting amounts for WSFR administration, the Multistate Conservation Grant Program, the Sport Fishing and Boating Partnership Council and fisheries commissions.

SPORT FISH RESTORATION PROGRAM

The Act, approved by Congress on August 9, 1950, provides funding for fish management, conservation, and restoration. The program is funded by a 10 percent Federal excise tax on fishing rods, reels, creels, lures, flies and artificial baits and a 3 percent tax on electronic fishing motors and sonar fish finders. The funds are apportioned annually to the states and territories (except Puerto Rico) by the Department of the interior on the basis of formulas set forth in the Act. Apportionments are determined for each state by land area and number of fishing license owners. All funds are disseminated through State Fish and Wildlife Departments.

STATE WILDLIFE GRANT PROGRAM

The State Wildlife Grant (SWG) Program provides Federal grant funds to State fish and wildlife agencies for developing and implementing programs that benefit wildlife and their habitats, including species that are not hunted or fished.

Grant funds may be used to address a variety of conservation needs--such as research, fish and wildlife surveys, species restoration, habitat management, and monitoring--that are identified within a State's Wildlife Action Plan. These funds may also be used to update, revise, or modify a State's Plan.

Congress appropriates funds for the State Wildlife Grant Program on an annual basis. Funds are apportioned to States, commonwealths, and U.S. territories based on a formula that considers each State's population and total geographical area.

Grant funds are disbursed to States for approved grants at a maximum federal share of 75% for planning grants and 65% for Plan implementation grants. Congress also allocates a portion of appropriated funds to a competitive SWG subprogram. State Wildlife Grant funds administered by the Wildlife and Sport Fish Restoration Program provide a unique source of funding, helping States to focus on targeted species in a proactive fashion, to help identify and reverse species population declines before restoration becomes more difficult and costly.

WILDLIFE RESTORATION PROGRAM

Approved by Congress on September 2, 1937, the Act provides funding for the selection, restoration, rehabilitation and improvement of wildlife habitat, wildlife management research and the distribution of information produced by the projects. Congress amended the Act on October 23, 1970, to include funding for hunter training programs and the development, operation and maintenance of public target ranges. Funds are derived from an 11 percent Federal excise tax on handguns. Funds are also collected from a 12.4 percent tax on archery equipment. A certain amount of funds (section 4) must be used on hunter education before additional funds (section 10) can be attained. The section 10 funds can be used for additional hunter education programs or for wildlife restoration. These funds are apportioned each year to the states and territories (except Puerto Rico) by the Department of the Interior on the basis of formulas set forth in the Act. Apportionments are determined for each state by land area and number of hunting license owners.

CHALLENGE COST SHARE PROGRAM

The Challenge Cost Share Program supports local projects that promote conservation and recreation, environmental stewardship, education, and engaging youth in the outdoors. Local project partners work with National Park Service (NPS) staff to achieve mutually beneficial outcomes. Applications are submitted by NPS staff in collaboration with project partners. This partnership challenge rewards those proposals that highlight long lasting benefits while developing new partnerships.

The program requires equal matching share. Cash, goods, or services from non-federal sources can be considered as a cost share. The maximum Challenge Cost Share project support is \$25,000. If selected our national partner, Outdoor Foundation, forms an agreement and provides project funds directly to the local partner. Applications are submitted by NPS staff in collaboration with project partners.

LAND AND WATER CONSERVATION FUND

The Land and Water Conservation Fund was enacted in 1964 (Public Law 88-578) to “create and maintain a nationwide legacy of high quality recreation areas and facilities.” LWCF provides funding for: (1) land acquisition for federal land managing agencies; and (2) matching grants to state and local governments for planning (states only), acquisition and development of park and recreation areas and resource based facilities. Specifics for federal land acquisition projects are determined each fiscal year by Congress and the Administration. Of the amounts appropriated in any given fiscal year for each State and Territory is determined based on a formula set in the LWCF Act, and is subsequently approved by the Secretary of the Interior. The grantee assumes all operation and maintenance costs in perpetuity. In Texas, the LWCF allocation funds a number of grant programs available to local communities, including

Amount: In 2016, Texas was allocated a total of \$5,415,887. All state and local grants require at least a 50 percent match by the non-federal partner.

DEPARTMENT OF JUSTICE - OFFICE OF JUVENILE JUSTICE AND DELINQUENCY PREVENTION

OJJDP provides national leadership, coordination, and resources to prevent and respond to juvenile delinquency and victimization. OJJDP supports states and communities in their efforts to develop and implement effective and coordinated prevention and intervention programs and to improve the juvenile justice system so that it protects public safety, holds justice-involved youth appropriately accountable, and provides treatment and rehabilitative services tailored to the needs of juveniles and their families.

The purpose of the Delinquency Prevention Program (formerly Title V) is to prevent youth at risk of becoming delinquent from entering the juvenile justice system and to intervene with first-time and non-serious offenders to keep them from further contact with the juvenile justice system. The goal is to reduce the likelihood that youth will become serious and violent offenders as adults, reducing the burden of crime on society and saving taxpayers billions of dollars.

The program includes the:

- Youth Tribal Program
- Gang Prevention Program
- Community-Based Violence Prevention Program
- National Forum on Youth Violence Program

The OJJDP will offer funding opportunities to states, territories, localities, and private organizations, including faith-based institutions to implement the departments programs through formula and block grants and discretionary grants.

To search for upcoming funding opportunities visit: <https://www.ojjdp.gov/funding/FundingList.asp>

FORMULA AND BLOCK GRANTS

The Formula Grants Program supports state and local delinquency prevention and intervention efforts and juvenile justice system improvements. Through this program, OJJDP provides funds directly to states, territories, and the District of Columbia to help them implement comprehensive state juvenile justice plans based on detailed studies of needs in their jurisdictions. The Formula Grants Program is authorized under the Juvenile Justice and Delinquency Prevention (JJDP) Act of 2002 (42 U.S.C. 5601 et seq.).

In FY 2016, OJJDP awarded \$40 million in formula and block grants. The Juvenile Justice Specialists in each state administers the funding through sub-grants to units of local government, local private agencies, and American Indian/Alaska Native jurisdictions for programs in accordance with legislative requirements.

DEPARTMENT OF LABOR

The U.S. Department of Labor provides both discretionary and non-discretionary/formula-based grants that implement programs of its agencies and divisions. Awarding and administering grants are done by either the department or by the Office of the Assistant Secretary for Administration and Management

The divisions and agencies of the Department of Labor that offer grant programs include:

- Bureau of Labor Statistics (BLS): provides project grants (cooperative agreements) and the dissemination of technical statistical data and related information on labor force activities; provides data on prices (CPI) and cost of living; data on productivity and technology data; data on compensation and working conditions; data on employment projections.
- Employment and Training (ETA): ETA administers financial assistance programs pursuant to the Workforce Investment Act (WIA), administering State formula grant programs for youth, adults and dislocated workers, national emergency grants for workers affected by mass layoffs, plant closures, and disasters; grant programs for workers with disabilities, Indians and Native Americans, and for migrant and seasonal farmworkers. ETA also administers grant programs for older American workers, apprenticeship programs, Trade Adjustment Assistance (TAA) programs, and assistance for research and development of workforce programs. In addition, ETA is responsible for the operation and maintenance of a national system of public employment service offices and for the national unemployment insurance program.
- Mine Safety and Health (MSHA): provides grants for research, education and training programs to ensure an adequate and competent staff of trained inspectors; and assistance for establishing or improving State mine health and safety programs through technical assistance.
- Occupational Safety and Health (OSHA): provides grants to non-profit organizations to provide training, educational services, and technical assistance; assistance to states to administer and enforce state programs; assistance to states to provide occupational safety and health technical assistance and consultant services.
- Office of Disability Employment Policy (ODEP): The Office of Disability Employment Policy awards competitive grants establishing short-term pilot and technical assistance projects designed to identify, develop, test, evaluate, and disseminate policies to increase employment by expanding access to training, education, employment supports, assistive and systems technology, integrated employment, entrepreneurial development, and small business opportunities for adults and youth with disabilities. Current pilot projects focus on customized employment, Olmstead populations, and innovative demonstration youth grants, among others. Solicitations for grant applications are published in the Federal Register and announced at www.dol.gov/odep. ODEP grants are awarded by the OASAM grant office.
- Veterans' Employment and Training (VETS): administers programs that address the employment, training, and job security needs of Americans who have served in uniform. VETS awards the Jobs for Veterans State Grants (JVSG) as a formula grant, to each state, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands. VETS also awards competitive grants to provide services to assist in reintegrating homeless veterans into meaningful employment with in the labor force and to stimulate the development of effective service delivery systems that will address the complex problems facing homeless veterans. VETS grants are awarded by the Employment and Training Administration Office of Grants Management.

DEPARTMENT OF TRANSPORTATION

TIGER DISCRETIONARY GRANTS

The Transportation Investment Generating Economic Recovery, or TIGER Discretionary Grant program, provides a unique opportunity for the DOT to invest in road, rail, transit and port projects that promise to achieve national objectives. Since 2009, Congress has dedicated nearly \$4.6 billion for seven rounds of TIGER to fund projects that have a significant impact on the Nation, a region or a metropolitan area. The eligibility requirements of TIGER allow project sponsors at the State and local levels to obtain funding for multi-modal, multi-jurisdictional projects that are more difficult to support through traditional DOT programs.

DEPARTMENT OF TRANSPORTATION - FEDERAL HIGHWAY ADMINISTRATION

The Fixing America's Surface Transportation Act (FAST Act) was signed into law in December 2015, authorizing \$305 billion over fiscal years 2016 through 2020 for highway, highway and motor vehicle safety, public transportation, motor carrier safety, hazardous materials safety, rail, and research, technology, and statistics programs. Funds are apportioned to states to administer programs or further allocate funds.

ACCELERATED INNOVATION DEPLOYMENT (AID) DEMONSTRATION GRANT

The AID Demonstration program is one initiative under the multi-faceted Technology and Innovation Deployment Program (TIDP) approach providing funding and other resources to offset the risk of trying an innovation. The AID Demonstration program provides funding as an incentive for eligible entities to accelerate the implementation and adoption of innovation in highway transportation. The FAST Act authorized funding for the continuation of these programs and opportunities. Entities eligible to apply (Applicants) are State DOTs, Federal Land Management Agencies, and tribal governments. Metropolitan planning organizations and local governments may apply through the State DOT as a sub recipient.

CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM

The purpose of the Congestion Mitigation and Air Quality improvement program (CMAQ) is to realign the focus of transportation planning toward a more inclusive, environmentally sensitive, and multi-modal approach. The CMAQ program provides funding for programs and projects in air quality non-attainment and maintenance for ozone, carbon monoxide (CO), and small particulate matter (PM-10), which reduces transportation related emissions. Grants are provided through a reimbursement process that varies state by state. Funds may be used for either the construction of bicycle transportation facilities and pedestrian walkways, or non-construction projects (such as maps, brochures, and public service announcements) related to safe bicycle use. In general, however, a sponsor would submit expenses to the state department of transportation, which would then reimburse at 80 percent of the project cost. The CMAQ Program was reauthorized for 2016 through 2020 through the FAST Act.

Amount: FAST Act provides for \$2.3 M to \$2.5 M in CMAQ funding each year from 2016 through 2020. It is estimated the State of Texas will receive an average of \$853 million in CMAQ funds annually.

Applications and information about CMAQ grants are available at: http://www.fhwa.dot.gov/environment/air_quality/cmaq/

RECREATIONAL TRAILS PROGRAM

The Recreational Trails Program, was reauthorized by the FAST Act, provides funds to develop and maintain recreational trails for motorized and non-motorized recreational trail users. Eligible project categories as defined in the act are: maintenance and restoration of existing recreational trails; development and rehabilitation of trailside and trailhead facilities and trail linkages; purchase and lease of recreational trail construction and maintenance equipment; construction of new recreational trails (with restrictions on new trails on Federal land); acquisition of easements or property for recreational trails or recreational trail corridors; state administrative costs related to program administration (up to 7 percent of a state's funds); and operation of educational programs to promote safety and environmental protection as these objectives relate to the use of recreational trails (up to 5 percent of a state's funds). Each state has its own procedures and timelines to solicit, select, and fund Recreational Trails projects.

In Texas, the Recreational Trails program is administered by the Texas Parks and Wildlife Department.

SAFE ROUTES TO SCHOOL PROGRAM

The Safe Routes to Schools (SRTS) Program is a Federal-Aid program of the U.S. Department of Transportation's Federal Highway Administration (FHWA). The Program was created by Section 1404 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users Act (SAFETEA-LU). The SRTS Program was funded at \$1.162 billion for Federal fiscal years (FY) 2005-2012 and is administered by State Departments of Transportation (DOTs).

The SRTS Program received dedicated funding through 2012. The Moving Ahead for Progress in the 21st Century Act (MAP-21) authorized the Transportation Alternatives Program (TAP), which replaced the funding from pre-MAP-21 programs including the Transportation Enhancement Activities, Recreational Trails Program, and Safe Routes to School Program (SRTS). MAP-21 did not provide specific funding for SRTS, but SRTS projects are eligible for TAP funds and for Surface Transportation Program (STP) funds. Under Fixing America's Surface Transportation Act (FAST Act), the TAP program was rolled into the Surface Transportation Program.

Safe Routes to School initiatives may be eligible under the Surface Transportation Block Grant Program or Transportation Alternatives Set-Aside.

Website: http://www.fhwa.dot.gov/environment/safe_routes_to_school/

SURFACE TRANSPORTATION BLOCK GRANT PROGRAM

The FAST Act converted the Surface Transportation Program to a block grant program that folds in the Transportation Alternative Program. The program provides funding to states and localities for projects to preserve and improve the conditions and performance on any Federal-aid highway, bridge and tunnel projects on any public road, pedestrian and bicycle infrastructure, and transit capital projects, including intercity bus terminals.

Amount: The FAST Act provides for an estimated average of \$4.796 million allocated to Texas for the STBG Program funding each year from 2016 through 2020

TRANSPORTATION ALTERNATIVES, STBG SET-ASIDE

The FAST Act amended the Surface Transportation Program to include a set aside for the Surface Transportation Block Grant Program, which is replacing the MAP-21 Transportation Alternative Program. Similar to its predecessors, the Transportation Alternative Program and Transportation Enhancement Activities, the STBG Program, or TA Set-Aside, authorizes funding for The TA Set-Aside authorizes funding for programs and projects defined as transportation alternatives, including on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, community improvement activities such as historic preservation and vegetation management, and environmental mitigation related to storm water and habitat connectivity; recreational trail projects; safe routes to school projects; and projects for planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former divided highways.

ENVIRONMENTAL EDUCATION GRANTS PROGRAM

The EPA Environmental grant program supports environmental education projects that enhance the public's awareness, knowledge, and skills to make informed and responsible decisions that affect environmental quality. The program provides financial support for projects that design, demonstrate, or disseminate environmental education practices, methods, or techniques. Each year, EPA's Office of Environmental Education releases a solicitation notice in the Federal Register that provides instructions for obtaining a grant. Educational agencies at the state, local and tribal level, state environmental agencies, college and universities, not-for-profit organizations, and noncommercial educational broadcasting entities are eligible to apply. Individuals are not eligible to apply. Although government agencies cannot apply directly, they are encouraged to work with other entities on developing and implementing environmental education programs.

ENVIRONMENTAL JUSTICE GRANTS

With these grants, the EPA aims to provide financial assistance to grassroots community-based groups to support projects to design, demonstrate or disseminate practices, methods or techniques related to environmental justice. Specifically, EPA will grant funding assistance to be used for: environmental justice education and awareness programs; environmental Justice Programs (for example, river monitoring and pollution prevention programs); technical assistance in gathering and interpreting existing environmental justice data; and technical assistance to access available public information. Community-based grassroots organizations, other incorporated nonprofit organizations and federally recognized Tribal Governments are eligible. Applications are usually due at the beginning of March each year. Awardees are notified in August of each year.

TEXAS PARKS AND WILDLIFE

BOAT SEWAGE PUMPOUT GRANTS

Federal funds through the Clean Vessel Act of 1992 allow private marinas and local governments to receive grants to install boat sewage pumpout stations in Texas. Pumpout Grants can constitute up to 75% of all approved project costs. These grants provide funds for the construction and/or renovation, operation and maintenance of pumpout and portable toilet dump stations.

BOATING ACCESS GRANT

The Boating Access Grant Program provides 75% matching fund grant assistance to construct new, or renovate existing, public boat ramps that provide public access to public waters for recreational boating. The State Boating Access Program receives funding from the Federal Aid in Sport Fish Restoration Act. Funds for the federal program are derived from the federal gasoline tax generated by sales of gasoline for recreational motorboats and a federal excise tax on the sales of fishing tackle and trolling motors. Fifteen percent of the state's annual apportionment from this federal program must be used to provide public recreational boating access.

COMMUNITY OUTDOOR OUTREACH PROGRAM (CO-OP) GRANT

The Community Outdoor Outreach Program (CO-OP) grant provides funding to local governments and non-profit organizations for programming that introduces under-served populations to environmental and conservation programs as well as TPWD mission oriented outdoor activities.

Grants are available to tax-exempt organizations and local governments introducing non-traditional constituents to TPWD related outdoor recreation, conservation, and environmental education programs. The success of this program lies in the partnerships created between TPWD and grass-roots organizations who have already established a relationship with these identified targeted audiences; females, physically/mentally challenged, ethnic minorities, low income and youth.

CO-OP provides grants to tax-exempt organizations ranging from \$5,000 to \$50,000. This is a reimbursement grant program. Recipients must purchase eligible items and submit proper documentation before being reimbursed. Eligible organizations can apply to use these funds for programming expenses such as equipment, leasing transportation, staff, liability insurance, food, program materials, etc.

TEXAS DEPARTMENT OF TRANSPORTATION

SAFE ROUTES TO SCHOOL PROGRAM

The purpose of the Federal Safe Routes to School (SRTS) Program is to address these issues head on. At its heart, the SRTS Program empowers communities to make walking and bicycling to school a safe and routine activity once again. The Program makes funding available for a wide variety of programs and projects, from building safer street crossings to establishing programs that encourage children and their parents to walk and bicycle safely to school.

Since 2012, the Safe Routes to School Program funding has been combined with other bicycle and pedestrian programs through (what is currently called) the Surface Transportation Block Grant Program and Transportation Alternatives Set-Aside.

TEXAS DEPARTMENT OF AGRICULTURE, FOOD AND NUTRITION DIVISION

SPECIAL NUTRITION PROGRAMS

The Texas Department of Agriculture's Food and Nutrition Division administers 12 federal child and special nutrition programs for the State of Texas. TDA supports providers of nutrition assistance by helping ensure accountability and the efficient use of taxpayer dollars to nourish Texans in need. These nutrition programs exemplify "eating right" for Texans of every age and background and help them build a bridge to success. Everyone plays a role in teaching children the 3E's of Healthy Living - Education, Exercise and Eating Right.

Financial grants from organizations may help advance nutrition efforts in our schools and communities. On this page you will find descriptions of specific grants with upcoming deadlines, as well as a list of organizations that make grants on an ongoing basis to support local nutrition, fitness, health, education, and community initiatives.

TEXAS DEPARTMENT OF AGRICULTURE, NATURAL RESOURCES CONSERVATION SERVICE

CONSERVATION INNOVATION GRANTS (CIG)

Conservation Innovation Grants (CIG) are competitive grants that stimulate the development and adoption of innovative approaches and technologies for conservation on agricultural lands. CIG uses Environmental Quality Incentives Program (EQIP) funds to award competitive grants to non-Federal governmental or nongovernmental organizations, American Indian Tribes, or individuals. Producers involved in CIG funded projects must be EQIP eligible.

Through CIG, NRCS partners with public and private entities to accelerate technology transfer and adopt promising technologies. These new technologies and approaches address some of the Nation's most pressing natural resources concerns. CIG benefits agricultural producers by providing more options for environmental enhancement and compliance with Federal, State, and local regulations.

States can also award project that benefit a limited geographical area. Participating states will announce their funding availability for CIG competitions through their state NRCS offices.

CONSERVATION STEWARDSHIP PROGRAM

The Conservation Stewardship Program (CSP) offers assistance to land owners who are already implementing conservation practices to enhance those practices. For example, if you have been practicing prescribed grazing, CSP would give you options to enhance that practice with activities such as grazing management to improve plants for wildlife, or grazing management to reduce soil compaction, or grazing management to improve riparian function, just to name a few.

With enrollment in CSP, the local NRCS conservation planner will have a one-on-one consultation with the property owner(s) to evaluate your current management system and the natural resources on your land. The NRCS conservation planner will present a variety of CSP enhancement alternatives for implementation on the land, based on existing conservation practices. CSP offers annual incentive payments for installing these enhancement practices.

EMERGENCY WATERSHED PROTECTION PROGRAM

The Emergency Watershed Protection Program (EWPP) is designed to help people and conserve natural resources by relieving imminent hazards to life and property caused by floods, fires, windstorms, and other natural occurrences. EWP is an emergency recovery program. All projects undertaken, with the exception of the purchase of floodplain easements, must have a project sponsor.

NRCS may bear up to 75 percent of the construction cost of emergency measures. The remaining 25 percent must come from local sources and can be in the form of cash or in-kind services. Funding is subject to Congressional approval.

City and county governments, flood and water control districts, and soil and water conservation districts are the most common sponsors of EWP projects. Activities include providing financial and technical assistance to:

- remove debris from stream channels, road culverts, and bridges,
- reshape and protect eroded banks,
- correct damaged drainage facilities,
- establish cover on critically eroding lands,
- repair levees and structures, and
- repair conservation practices.

NRCS may purchase EWP easements “in lieu of recovery” on any floodplain lands that have been impaired within the last 12 months or that have a history of repeated flooding (i.e., flooded at least two times during the past 10 years). If it is more cost effective, EWP-Floodplain Easement (FPE) can be used as an alternative to EWP. See the comparison of EWP and EWP-FPE.

ENVIRONMENTAL QUALITY INCENTIVE PROGRAM (EQIP)

EQIP provides financial and technical assistance to agricultural producers in order to address natural resource concerns and deliver environmental benefits such as improved water and air quality, conserved ground and surface water, reduced soil erosion and sedimentation or improved or created wildlife habitat.

Eligible program participants receive financial and technical assistance to implement conservation practices, or activities like conservation planning, that address natural resource concerns on their land. Payments are made to participants after conservation practices and activities identified in an EQIP plan of operations are implemented. Contracts can last up to ten years.

Blue Cross and Blue Shield of Texas Healthy Kids, Healthy Families initiative

Healthy Kids, Healthy Families (HKHF) began in 2011 as a three-year initiative designed to improve the health and wellness of at least one million children through community investments. We extended the program, making HKHF part of our ongoing commitment to the health and well-being of the children and families across Texas. To date, we've helped nearly three million children.

The Blue Cross and Blue Shield of Texas Healthy Kids, Healthy Families initiative invests and partners with nonprofit organizations that offer sustainable, measurable programs. The programs must address health and wellness in the following areas:

- Nutrition
- Physical activity
- Disease prevention and management
- Supporting safe environments

In addition to aligning with one or more of our four areas of focus, the following criteria are required for review of all grant proposals:

- The organization must hold a 501(c)(3) tax status
- The grant must primarily target individuals in Texas
- The program must be measurable and demonstrate how the goals will be met as defined in the grant proposal

BNSF Railway Foundation

The Foundation is dedicated to supporting the communities they serve and in which their employees live, work, and volunteer. Generally, the foundation will consider grant requests that clearly fall within one or more of the following categories:

- Civic services including organizations which are concerned with the environment, as well as local community issues such as crime prevention, parks and recreation, diversity and community development.
- Cultural organizations that include performing, visual, and fine arts, museums and other related activities that offer opportunities for underserved children to experience cultural learning events, or preserve their cultural heritage.
- Educational institutions, both public and private, primarily at the college level. Grants of an exceptional nature may be made to vocational and non-college schools. Preferably, contributions will be directed toward the improvement of the quality of education. Ordinarily, grants will not be made to finance the expansion of a student body or the payment of scholarships. (BNSF's scholarship programs, as well as the Employee Matching Gift Program, are governed by separate policies.)
- Health and Human Service organizations such as YMCA/YWCA, programs that address chemical dependency treatment and prevention, spouse and child abuse, women's and children's aid and transitional shelters. This category also includes hospitals and medical programs.

- Youth organizations such as Boys & Girls Clubs, Camp Fire, Scouts, Junior Achievement and similar groups.
- Federated organizations such as United Way and American Red Cross.
- A federally recognized tribal government, listed in the Federal Register by the Department of the Interior, Bureau of Indian Affairs.

Finish Line Youth Foundation

The Youth Foundation is a philanthropic outlet for Finish Line to make a difference in the lives of youth in the communities it serves. Through the years, the Youth Foundation has fine-tuned its mission and grown its philanthropic presence including its grant giving capacity.

To date, the Youth Foundation has awarded more than \$14.5 million in funding to support youth and Special Olympics athletes across the country. The generosity of our customers who donate online and in-store is what enables Finish Line to continually make an impact in the communities where our employees live, work and play.

FL Youth Foundation offers grants in three categories:

- Programmatic Grant: Up to \$5,000 to fund opportunities for kids to participate in community-based youth athletic programs and camps that emphasize active lifestyles, especially programs that serve disadvantaged and special needs kids.
- Legacy Grant: \$10,000 to \$75,000 to fund new facilities improvements and/or renovations to existing buildings, grounds, and property.
- Founder's Grant: \$5,000 to \$25,000 to fund emergency needs that would somehow be keeping the organization from providing current services, such as natural disasters or other unforeseen fiscal circumstances.

GO! Grant

GO! Grants are \$1,000 to \$5,000 grants to elementary schools to spark and sustain physical activity programs that take place before, during or after the school day. The funds may be used for equipment, facilities, professional development for adults and programs that increase students' physical activity to the recommended 60 minutes or more per day. Grants are available in all states and the District of Columbia.

PHIT America GO! Grants have been awarded to almost 300 schools getting children 5-12 years old physically active and healthier. GO! Grants help get children active for the first time or increase their physical activity & fitness level. Leading brands like Nike, Adidas, Brooks, ETS, Life Fitness, Wilson, Mizuno, the USTA and many more are investing in the GO! Grants programs.

GO! Grant programs are implemented by three-year partner, KIDS in the GAME, which excels in managing programs which get more kids off the couch and physically active. This program is the ideal way to fight the 'Inactivity Pandemic' which is creating health issues for our children.

L.L. Bean Community Charitable Giving

The L.L. Bean Community Charitable Giving program focuses giving on national and local outdoor conservation and recreation organizations. L.L.Bean has given more than \$14 million to local, state, regional and national conservation organizations in the last ten years. Grants are made only to qualified, federal tax-exempt 501(c) (3) organizations.

Grants are made in these four categories:

1. Conservation and Outdoor Recreation

Primary activities include the maintenance and protection of our natural resources; efforts to engage more young people in activities that are relevant to our product line, such as camping, hiking, cycling, canoeing, kayaking, fly fishing, hunting, snowshoeing and cross-country skiing; and programs that have proximity to L.L.Bean Retail Stores.

Some of our recipients include the National Park Foundation, the Appalachian Trail Conservancy, The Student Conservation Association, The Nature Conservancy, Maine Audubon, Trout Unlimited and National Wild Turkey Federation. For a more comprehensive list, [click here](#).

2. Health and Human Services

L.L.Bean has donated over \$6 million to health and human service organizations in the past ten years, primarily through the United Way in communities where we have a physical presence. These donations reflect our confidence in the United Way allocation process and our belief in supporting the physical and emotional well-being of our employees, their families and our neighbors. Because of our significant leadership gifts in this area, we are not accepting requests from health and human service organizations at this time.

3. Education (*only available in Maine)

L.L.Bean has contributed over \$4 million to statewide initiatives in Maine such as Junior Achievement and Jobs for Maine's Graduates, as well as local education partnerships. Our support is limited to the following Maine school systems: Freeport, Portland, Lewiston, Brunswick and Bangor. We do not fund education initiatives outside of Maine.

4. Culture and the Arts (*only available in Maine)

We support organizations that enrich the cultural development of our local Maine communities, including the Portland Museum of Art, Maine State Music Theatre and the American Folk Festival in Bangor. We only offer support to arts organizations in Freeport, Portland, Lewiston, Brunswick and Bangor, Maine.

Mattel Children's Foundation

The Mattel Children's Foundation focuses its strategic grant making on one major objective: Improving the lives of children in need. The Mattel Children's Foundation has developed partnerships with exemplary nonprofit partners that demonstrate this ideal through both compassionate outreach to children and strong financial accountability.

The foundation is driven by the belief that play is essential for all children because it is fundamental to development and learning but millions of children lack access to play. Currently, the foundation is dedicated to supporting nonprofit organizations around the world that make a meaningful difference in the lives of children, and with an emphasis on programs that support or enhance the opportunity for children to play.

Not accepting unsolicited applications at this time.

MetLife Foundation

MetLife Foundation has committed \$200 million over five years to help low-income individuals and families get access to safe and affordable financial products and services. MetLife Foundation works in both developing and developed economies to expand and improve financial services. We fund approaches that help low- and moderate-income people:

- improve basic cash flow management
- prepare for life's inevitable challenges
- take advantage of opportunities
- achieve their short- and long- term goals

In addition, MetLife sponsors initiatives in other philanthropic areas, expanding beyond the financial health of communities to support for medical research, arts and cultural institutions, disaster relief, and civic initiatives.

Muscle Milk Recovery Grant

The MUSCLE MILK® team awards grants to revitalize high school athletic departments around the country that demonstrate a financial need. The Muscle Milk Recovery Grant™ program helps athletic programs solve immediate needs like purchasing new uniforms, replacing broken equipment or restoring facilities in disrepair.

CytoSport, Inc. (“Sponsor”) believes strongly that sports and exercise are essential to the health, well-being and happiness of children and adults of all ages. As a result, we want to give back to our audience by providing grant money to worthy school or community programs that have a specific need for resources to improve athletic opportunities for kids and young adults. To facilitate this goal, we developed the Muscle Milk® Brand Recovery Grant Program (“Grant Program”), which will provide a series of grants to deserving programs at least four times a year, and maybe more. Each grant will represent a self-contained giveaway with an entry period as defined below.

Nature Works Everywhere Grant

The Nature Works Everywhere program is administered by The Nature Conservancy, a leading conservation organization working around the world to protect ecologically important lands and waters for nature and people. Nature Works Everywhere gives teachers, students and families everything they need to start exploring and understanding nature around the globe alongside Nature Conservancy scientists. The program offers a grant opportunity to schools across the U.S. to build, amend or revitalize school garden projects with the core principal that gardens model nature on a relatable scale. By combining project-based learning curriculum with a school garden space, students learn conservation-mindedness.

In 2016, the Nature Works Everywhere grant broadened its support for all kinds of projects that involve students in developing a nature-based, green infrastructure solution to an environmental challenge in their community. Whether addressing issues surrounding access to healthy food, air quality, heat island effect, climate change or storm water collection, youth will be empowered as social innovators to model solutions in their school communities through project design and implementation. To accomplish this, the Nature Works Everywhere grant will support projects that implement green infrastructure to address local environmental challenges.

[Robert Wood Johnson Foundation](#)

The Robert Wood Johnson Foundation (RWJF) funds program and policy initiatives in four areas which are each critical to health equity—enabling everyone in our nation to live a healthier life:

- Health Systems: Catalyzing fundamental changes in health and health care systems to achieve measurably better outcomes for all.
- Healthy Kids, Healthy Weight: Enabling all children to attain their optimal physical, social and emotional well-being, including growing up at a healthy weight.
- Healthy Communities: Creating the conditions that allow communities and their residents to reach their greatest health potential.
- Health Leadership: Engaging a diverse array of leaders in all sectors with the vision, experience, and drive to help build a Culture of Health.

Specific grant programs are developed by RWJF program staff, in consultation with leading experts in our fields of interest, and with guidance and final approval from our board of trustees.

In many cases, a competitive call for proposals (CFP) is issued that defines the challenges to address, activities RWJF will support to achieve desired outcomes, and eligibility criteria. In addition, funding is also provided through open calls for ideas and different types of challenges and prize competitions.

Walmart Community Grant Program

Through the Community Grant Program, store associates are proud to support the needs of their communities by providing grants to local organizations. Funds must benefit the facility's service area: potential grantees should be nonprofit organizations with programs that benefit communities within the service area of the Walmart store, Sam's Club or Logistics facility from which they are requesting funds.

Walmart and the Walmart Foundation have identified four core areas of giving: Hunger Relief & Healthy Eating, Sustainability, Women's Economic Empowerment and Opportunity. To ensure that your application has the best chance of being funded, the proposed use of the grant should fit within one of these areas of giving.
