

EXECUTIVE SUMMARY

County Standard General Notes

PURPOSE:

Large public buildings with multiple user groups, having been occupied for many years, often present unforeseen complexities for parties seeking to make improvements. Often times, a current construction project or installation reveals layers of work over time that may now be outdated or no longer compliant with modern standards.

In an effort to keep various County agencies informed of building improvement and safety needs, Facilities will require the following General Notes to be included in all Contract documents and Scope of Work:

GENERAL NOTES:

1. *Contractor/ Installer shall notify County of any existing non-conforming/ non-code compliant installations or life-safety conditions uncovered or observed in the process of the Work. Conditions shall be reported whether or not they are within or outside the contractual scope of work.*
2. *Contractor shall maintain the Fire Protection system of the entire building in working order for the duration of the project. Notify County of any conditions related to the Fire Protection system uncovered or observed outside the contractual scope of work.*
