

# RONALD REAGAN CORRIDOR PLANNING SEGMENT D (Williams Dr to SH 195)

FACT SHEET

Updated October 2021

**County Commissioner:** Commissioner Valerie Covey, Precinct 3  
**Project Limits and Length:** 5 miles on Ronald Reagan Boulevard from Williams Drive to SH 195  
**Project Schedule:** Planning to be finalized in 2022. There is currently no funding for construction. Safety and mobility, expanding north-south and east/west connectivity, providing an alternative to I-35  
**Issues to be addressed:**  
**Project Engineer:** Rodriguez Transportation Group

## PROJECT PURPOSE:

Williamson County is conducting a study to plan for widening the existing Ronald Reagan Boulevard between Williams Drive and SH 195. This proposed expansion will accommodate future increased traffic on the roadway and provide safety improvements. These improvements would include turn lanes, divided roadways, and shoulders in both directions to enhance safety for the motoring public. The roadway would be built in phases as growth necessitates additional lanes and as funding becomes available. The full buildout of the road would most likely take several decades and result in an eight-lane controlled access roadway.

Ronald Reagan Corridor Planning is a part of the County's Long-Range Transportation Plan and is being funded via the voter-approved 2019 Road Bond. While there is no funding for construction, the County is working to preserve right of way (ROW) before property values make the improvements cost prohibitive. Early preservation of ROW allows the County to take a phased approach and build sections of the road as needed as well as allows property owners to plan.

## STUDY AREA:

## WHY THE PROJECT IS NEEDED:

Williamson County has experienced immense growth in recent years and current population projections predict that this growth will continue. Transportation planning to keep pace with growth is the County's responsibility. Additional lanes are required to improve connectivity, mobility and safety for residents, ultimately protecting their quality of life.
