## APPROVED LIST OF PROPRIETARY CONTROL PANELS WITH SYSTEM SHUTDOWN FOR TREATMENT OR DISINFECTION FAILURE

For On-Site Sewage Facilities with Surface Application disposal submitted after April 27, 2015

The following control panels have been approved for use with aerobic treatment units utilizing surface application disposal methods. Supporting documentation from the manufacturer is required before approval of the control panel or planning material can be granted. Any changes to these control panels will require evaluation by the Williamson County Engineer's Office.

- **Clearstream**

Module C/T 207 for Night Spray = CT-NS207 (Clearstream)

P5203HWW = 500gpd Drip

P5207HWW = 600gpd Drip

P5211HWW = 750gpd Drip

P5223HWW = 800gpd Drip

P5215HWW = 1000gpd Drip

P5227HWW = 1200gpd Drip

P5219HWW = 1500gpd Drip

P5204HWW = 500gpd Night Spray

P5208HWW = 600gpd Night Spray

P5212HWW = 750gpd Night Spray

P5224HWW = 800gpd Night Spray

P5216HWW = 1000gpd Night Spray

P5228HWW = 1200gpd Night Spray

P5220HWW = 1500gpd Night Spray

- **Ecological Tanks, Inc.**

Model 205 (AquaSafe, AquaAire)

- **RJR Controls**

Model ACP-CJ-WC (Jet brand single compressor compatible)

Model ACP-CJ2-WC (Jet duel aerator compatible)

Model ACP-PC-WC (AquaKlear & Nayadic single air compressor compatible)

SACAD (Cellular telemetry unit)

- **Septic Products Inc.**

50B138-WC-R2 (Enviro-Flo, Nuwater & Maxx Air)

80000-130-PF-WC-ND-TSS (Pro Flo)
